

7 September 2020

Dear Parents,

Your child in Year 5 or Year 6 has been engaged in the Draft New Curriculum Learning Cycle. Year 5 have been using the Catholic lens to investigate how human freedom comes with the responsibility to think before we speak and act. Their driving question has been “ What does it mean for humans to think about their thinking?” Year 6 have been using the insights from Sacred Scripture and Catholic Tradition, to relate personal hopes and joys to others, particularly the marginalised and the most vulnerable. Their driving question has been “ How do we find hope and Joy?”

Thank you for your support and involvement in a special point in time for our Diocese as we move towards a new Religious Education Curriculum to inspire the hearts and minds of our students. This is now an opportunity to receive your feedback as parents.

We would like to invite you to complete a short survey that records your insights into your child's learning experience in Religious Education this term. The survey will be anonymous and will be open from Tuesday, 8 September to Sunday, 13 September.

You will be required to select your school name from the drop down menu and respond to a few short questions. There is also an opportunity to provide additional feedback.

This is another significant opportunity for parents to further collaborate in the development process of the Draft New Curriculum. We hope that you are able to do so.

We look forward to sharing the survey results with you in the near future.

To complete the survey please go to the following [link](#).

Kind Regards

Mrs Wardeh Khoury
Religious Education Coordinator
